

Discretion in Dress

It's no trivial task for a man to get the precisely right apparel touch to suit his person and his personality. There is a type of man who should always dress quietly and unobtrusively—another type of man who needs a dash of the extreme to complete his toilet. Both types and all the many in between, find immeasurable clothes content in the lines we are showing for the fall season.

SHOTGUN ARTIST TO VISIT BRYAN

Capt. A. H. Hardy, Remarkable Artist With a Gun, to Give Exhibition in Bryan October 23rd.

Announcement was made yesterday afternoon by Mr. H. C. Fulham of the Lawrence Grocery Company, and an enthusiastic member of the old Bryan Gun Club, that this city is to have the honor of entertaining Capt. A. H. Hardy, who is recognized as the best artist with a gun in the United States. Captain Hardy's visit is for the purpose of arousing interest in the local gun club, which has been disorganized for several months. A free exhibition of this gentleman's shooting will be given on the afternoon of the 23rd of this month. The place selected is Dellwood Park and the event will no doubt prove to be interesting to many.

Captain Hardy's achievements with different kinds of firearms are remarkable. On November 10, 1904, at Lincoln, Neb., Captain Hardy broke 1,000 2 1/4-inch balls without a miss, 25 feet, using Peters' .22 calibre semi-smokeless cartridges. He used but one rifle and did not clean it throughout the test.

On December 23-24, 1905, at Lincoln, Neb., he hit 5,152 balls, under same conditions as above, without a miss, using but one rifle and not cleaning it throughout the test.

On November 13-18, 1907, at Lincoln, Neb., he hit 13,066 2 1/4-inch balls without a miss, and 992 out of 1,000 3/4-inch marbles, with a run of 321 straight.

He has also broken 500 balls in 11 minutes and 16 seconds, loading his own rifles, and 100 balls in 85 seconds. Further announcement will be made regarding this big event later.

NOTICE, K. OF P.

Regular meeting tonight at 8 o'clock sharp. Work in the first degree. Frank McGee, C. C. R. T. Smith, K. of R. and S.

POWER PLANT IN GOOD CONDITION

One Engine in Pink of Condition and the Other to Be Fixed by Expert of T. P. and L. Company.

The announcement was made this morning by Manager J. T. Lawler of the Bryan Power Company that he held no fears now of another breakdown soon. The engine which was put out of commission several months ago by the breaking of the crank shaft is now repaired and is the one furnishing the power now being used in the city. The duplicate of this engine will be in first class running order in a few days and then a regular shift from one to the other will be made and both kept in the best of condition. Mr. Lawler says that after the second engine is running again he will be fixed unless another bad break occurs.

Mr. E. L. Lehman of the Texas Power and Light Company, who arrived in the city last Friday to assist in the work, left the city last night on another call where they have the same trouble that Bryan had, so you can see that all the power trouble in Texas is not in Bryan. Another man, a specialist on the Diesel engine, will arrive tonight or tomorrow to assist in getting both engines in tip top shape and then Bryan will be fixed for power.

REV. WELCH RETURNS FROM NATIONAL CONVENTION.

Rev. J. C. Welch, pastor of the First Christian church, returned yesterday afternoon from Des Moines, Iowa, where he has been the past ten days attending the national convention of the Christian church. Rev. Welch reports a great meeting, a large attendance, and says he feels greatly benefited by having attended.

An old bachelor observes that married men are often as anxious to get out of matrimony as single fools are to get in.

NEW CONCERN TO BORE FOR OIL

Bryan Citizens and Outside Oil Men to Prospect on Navasota River. Prospects Are Favorable.

For years it has been known there were strong oil indications on the Navasota river east of Bryan in what is known as the "Buzzard Roost" section. Several efforts have been made heretofore to form a company to develop the field, but for one reason or another it failed to materialize.

For several months now, however, parties have been working quietly securing leases on lands in that vicinity and they now have holdings under lease amounting to about 1,781 acres. A joint stock company has been formed, the temporary organization of which is as follows:

R. C. Davant, Beaumont, president.
J. D. Conlee, Bryan, vice president.
Lamar Bethea, Bryan, secretary-treasurer.
F. Clevort and J. D. Adams, directors.

The Eagle was informed this morning by Mr. Davant, president of the company, that a contract had been let to J. D. Adams to sink a well 2,000 feet deep, the rig had been shipped from Gonzales to Bryan and work was expected to begin within the next few days.

A contract for furnishing the wood for the engine that operates the drilling rig has been let to Mr. D. B. Lloyd of Reliance. Mr. Lloyd has also been given the contract for the hauling—taking the drilling outfit out from Bryan, the casing, etc.

The following party was expected to go out from Bryan today to locate the site upon which the well will be sunk: R. C. Davant, J. D. Conlee, Lamar Bethea, O. E. Saunders, John C. Vick, Capt. O. L. Tabor, M. M. Williamson of College, John Sebesta, Dave Munday, Bob Mham and perhaps others.

It begins to look like business and the Eagle hopes the efforts of the men who are backing the enterprise will prove successful.

FORD BRINGS PREMIUM.

The fact that the Ford automobile is popular in this community cannot be disputed. There was a certain party had an order placed with the local dealers for this car and he got tired of waiting for its delivery and went to a man who had recently bought one and offered him a bonus of \$25 more than the car was bought new for to turn same over to him. The first man bought the car on regular terms and sold it to the other fellow for spot cash and besides the pleasure he had out of the car, he realized a profit of \$25.

Don't envy the man with a wonderful memory; he may remember things he would rather forget.

THANKS OF SYNOD.

Remembrance to All Who Contributed to Success of Meeting.

Resolved, That we, the members, visiting brethren, corresponding members and members of the Synodical Auxiliary and others attending the sixty-first session of the Synod of Texas, in session at Bryan, Texas, October 10-13, 1916, as far as we are able to do so with our use of cold and for

mal words, express our sincere thanks to the pastor, officers, members and friends of the First Presbyterian church for its genuine welcome, true hospitality, for every courtesy and kindness shown us while in their midst; to the railroads for reduced rates; to the daily papers for the space so freely given for the record of the proceedings of each day; to the Chamber of Commerce of Bryan for the automobile ride to College Sta-

tion, and for the reception tendered by the faculty, their wives and the cadets of A. and M. College; to the ladies for the elegant reception at the home of Mr. and Mrs. M. F. Dansby.

For every other act of kindness shown us we express our deepest gratitude, and pray God's richest blessings upon all the homes and churches that have opened their portals and pulpits to us.

Adopted by a unanimous rising vote.
J. D. LESLIE, Stated Clerk.
